Synthetic Risk Indicator (SRI)

Lower risk Higher risk

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The risk indicator assumes you keep the product for 5 years.

The synthetic risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity of ABN AMRO Investment Solutions to pay you. **Be aware of currency risk.** You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. The risk is not considered in the indicator shown above. Beside the risks included in the risk indicator, other risks may affect the fund performance. Please refer to the fund Prospectus, available free of charge at www.abnamroinvestmentsolutions.com.

Mains risks:

Equity markets risk, Liquidity risk, Counterparty risk, Operational and custody risk, Capital loss, Sustainability risk, ESG risk, Taxation risk, Warrant risk.

For the definition of the risks, please refer to the Prospectus available at www.abnamroinvestmentsolutions.com.

Composition of costs

Entry costs (max.)	None
Exit costs (max.)	None
Management fees and other administrative or operating costs	0.90% (0.75% of Mgt fees + 0.15% of Adm. & Ope. costs)
Transaction costs	0.11%

Performance fees	None
Conversion fees (max.)	None
Taxe d'abonnement*	0.01%
Minimum Holding	1,000,000 USD

The costs may increase or decrease as a result of currency and exchange rate fluctuations. *The *Taxe d'abonnement* is part of the Administrative fees.

Management objectives

The Fund seeks to increase the value of its assets over the long term by investing predominantly in equities of companies in North America. Selection of investments will rely on a combination of financial criteria, as well as Environmental, Social & Governance criteria. The Fund promote environmental and social characteristics and qualifies as an investment product in accordance with article 8(1) of Regulation (EU) 2019/2088 on sustainability related disclosures in the financial services sector. In that respect, the Fund Manager has set up a process that integrates fundamental and ESG (Environment, Social and Governance) research to assess the business quality and valuation of potential companies. The ESG assessments include both exclusionary screens and a bottom-up ESG evaluation. After implementation of the sustainability filters (exclusions and ESG scoring), the bottom quartile of companies is excluded from the investable universe. Thus, the ESG score of the portfolio is better than the one of the investible universe. The sustainability analysis covers 100% of the securities in portfolio (cash, deposit are not covered by the ESG analysis). As part of the Management Company's Sustainable Investment Policy, the Fund complies with the sets of exclusions applying to article 8 investment product. In addition, the Fund excludes companies involved (over 10% threshold of revenue) I) in the extraction, exploration, production and/or refining of fossil fuels defined by the Portfolio manager as oil and gas (exception: companies that use fossil-based energy to power operations or other), II) in Nuclear Power, III) in the manufacture of Alcohol. Methodological limitations can be assessed in terms of: nature of ESG information (quantification of qualitative data), ESG coverage (some data are not available for certain issuers) and homogeneity of ESG data (methodological differences). The minimum asset allocation in such securities on a consolidated basis (direct and indirect investments) will be of 60% of the Fund's net assets (after deduction of the Fund's cash). This Fund is actively managed and is compared to the MSCI USA TR Net for performance and risk level indicator purposes. However, the reference to this index does not constitute any objective or limitation in the management and composition of the portfolio and the Fund does not restrain its universe to the index components. The index does not evaluate or include its constituents on the basis of environmental and/or social characteristics and is therefore not aligned with the ESG characteristics promoted by the Fund. Therefore returns may deviate materially from the performance of the reference index. The base currency of the Fund is USD. The manager reserves the right to use derivatives as provided for in the contractual documentation. These management objectives are copied from the KID.

Disclaimer

ABN AMRO Investment Solutions - AAIS

Limited company with Executive and Supervisory Board capital of 4,324,048 Euros

registered with the RCS Paris under number 410 204 390,
